Summary of Activities to Date:

*Provide an up-to-date description/status for **all** project activities/deliverables (as identified in the Request for Application timeline) that relate to this reporting period.*

1. Are anticipated timelines for each activity/deliverable being met? Yes No

If not, identify which activity/deliverable is not being met, per the timeline, and explain why:

B., D., E & F. - The Mexican American Addiction Program (MAAP) has been selected as the proposed vendor to develop and implement the peer mentoring program for ACRC's clients. It was hoped that the vendor would be able to begin to implement services by June 2013, however as this is a completely unprecedented program the program design has taken longer to develop than previously assumed. As has the determination of the proper way to vendorize the program. It is expected that the program design will be completed no later than February 1, 2014, with the implementation of services shortly thereafter.

a. Identify the steps your regional center is taking to address the above: ACRC continues to offer technical assistance to the proposed vendor as they complete their program design development. This project manager and ACRC's Community Services and Supports Department met four times during the reporting period to confer regarding the program design and rate. A meeting was held on October 21, 2013 with MAAP to revise their program design submission. A meeting is scheduled on January 3, 2014 to finalize MAAP's program design and rate.

A pool of possible clients to participate in the mentoring plan has been developed by the ACRC Forensics staff.

2. Describe the progress made on project deliverables to date:

A. & C. Joint Taskforce meetings continue to occur. During this reporting period meeting a meeting was held on September 9, 2013 with 13 in attendance. Nine different community alcohol and drug treatment agencies have participated in the Joint Taskforce (one additional agency during this reporting period).

G. & H. On October 25, 2013, this Project Manager and consultant John de Miranda conducted training for 10 staff from Nevada County AOD and local community AOD agencies.

On July 23, 2013, this Project Manager and consultant John de Miranda presented two training sessions to Services Coordinators and clinical staff at ACRC. Approximately 45 ACRC staff received training.

On August 13, 2013 this Project Manager and consultant John de Miranda presented an additional training session to Services Coordinators and clinical staff at ACRC with approximately twenty in attendance.

The final four training sessions (aimed at ACRC's vendor community) will be held in February through April 2014.

B, D, & E, The Mexican American Addiction Program (MAAP) has been selected as the vendor to develop and implement the peer mentoring program for ACRC's clients. It was hoped that the vendor would be able to begin to implement services by June 2013, however as this is a completely unprecedented program the program design has taken longer to develop than previously assumed. It is expected that the program design will be completed no later than February 2, 2013 with the implementation of services shortly thereafter.

F. This deliverable is still in progress. As the services for the mentoring program have not yet been vendored the development of the training curriculum remains in progress. It likely this deliverable will be completed by March 1, 2014
