Helping clients of the Regional Center in **maintaining** their housing.

Over the last 3 years have housed over 175 individuals

Roommate matching app

Vendored in February 2025 and already housed 11 individuals.

Assistive Technology Pilot

DDS Workforce Initiative

2023-2026

The pilot program will explore the use of technology to deliver remote services and supports to individuals with intellectual/developmental disabilities.

Technology services are intended to provide supports and services necessary for individuals to access services remotely and meet the goals identified in their Individual Program Plans.

The **goal of the program** is to provide support of the participant's individual program plan goals, reduce the need for a direct support person and enable the participant greater independence, inclusion, and quality of life.

100% Employee Owned

Assistive Technology

Cognitive Assists
