## Employment Services

Alta California Regional Center (ACRC) shall assist adult consumers towards achieving the goal of paid employment. Employment services can range from participation in structured work activity programs, competitive employment, or through Supported Employment Group and Individual services in collaboration with the Department of Rehabilitation (DOR).

ACRC habilitation services, including supported employment and work activity programs, offer paid work with training to maintain and improve vocational skills.

Referrals for supported employment shall be made to DOR. Access to these services includes training and on-the-job support as determined by DOR.

ACRC shall give preference to:

- Service providers offering integrated work opportunities and competitive wages.
- Services that match the strengths and job interests of the consumer to available community employment.

The ACRC Executive Director may review and authorize an exception(s) if warranted by individual circumstances.
