

## *Culturally and Linguistically Competent Self- Determination Program*

The USC UCEDD at Children's Hospital Los Angeles received a 2020/21 DDS Service Access and Equity grant to identify barriers to participation in Self-Determination in communities of Color.

We conducted focus groups in the African American/Black, Latino and Chinese Communities. We would like to share what we learned with you at a virtual community symposium. Please join us for an exploration of barriers and recommendations to address these challenges. We hope to see you there!

**May 16, 2022**

**2PM - 4PM**

**To register, please select your preferred language below.**

[Amharic / አማርኛ](#)

[ASL](#)

[Cantonese / 廣東話](#)

[English](#)

[Mandarin / 普通話](#)

[Spanish / Español](#)

Please note, Spanish and ASL interpretation will be available at the symposium. Amharic, Cantonese and Mandarin interpretation will be available upon request (with 5 days notice).
