Voices from our team

"An internship with ACRC will prepare you for real-world situations in a way that reading chapters simply cannot. This was the first time I could put theory into practice, and everything 'clicked'. I felt my internship taught me more about theories than some of my classes!" - Amanda (Former MSW Intern & Current Service Coordinator)

"Working with clients and other agencies helped me identify my strengths and the quality of life I wanted long-term. I decided to return to ACRC after graduating because I really enjoy the rewarding feeling of making a difference." - Lisa (Former MSW Intern & Current Service Coordinator)

"My internship provided me with a strong foundation in person-centered practices. Professionally, it helped me develop critical skills in case management, collaboration, and navigating complex service systems." - Tracy (27-year ACRC Veteran, former MSW Intern and current Associate Director)
