Your child, known. Meet Anya.

“How will others know what to do for my child when I can’t be there?”

Join us as Michael Pearce introduces ANYA, the new AI built to answer that question. You talk to ANYA about the thousand things you “just know” about your child. ANYA holds all that information so whoever steps in next isn’t starting from zero.

Hear from parents using ANYA about what it’s given back to them.
